

This summer, Mrs. Du met with 3<sup>rd</sup>-grade teachers, Mrs. Stauffer and Mrs. Shumway. Our students are corresponding with the 3<sup>rd</sup>-grade class at the Shanghai Experimental School in China, where Jeffrey and Alex Du are students. It was interesting to exchange information and ideas.

Mrs. Du and Mrs. Shumway visited Mr. Diederich's summer school class. Many of his students had received cards from the Shanghai Experimental School 3<sup>rd</sup>-grade class.

Our guest from China took the summer school students on a virtual tour of Shanghai. She also shared her first language, Mandarin, and sang a beautiful song for the class.

The summer school class shows some of the cards they received from the Shanghai Experimental School. The Chinese students wrote in English and sent artwork they created of the city and the international Expo.

Our students wrote letters to their new friends in China.
