Environmental issues in English

We have only one earth. But now, the environment becomes worse and worse. As you know, there's no enough clean water for people. So many of them lose their lives because of water. In a lot of countries, people have to cut trees for living. So there's nothing to keep water from running away. Also we have polluted the land, the river and the air. So we have to face more and more floods and droughts. It's time that we must do something useful to protect our environment. We can plant trees and take good care of them. We can save the water and ask our parents to do so. We can't throw any litter onto the ground and we should collect them for recycling. If we take good care of our earth today it will be more beautiful tomorrow.

Why Everyone Should Recycle

Recycling is one of the best ways to help the environment. It's a way to reuse things that we don't need anymore. This helps to save resources and reduce pollution. Recycling also helps to save energy and money. There are many things we can recycle, like paper, plastic, glass, and metal. We should all do our part to keep our planet clean and healthy. Recycling is a simple way to make a big difference. Let's all join together and make recycling a habit. Our planet will thank us for it.

小明变了

一天，有一个小孩叫小明，他常常用眼中带泪的眼睛洗手后要擦干脸子，也常常要眼中痒痒，痒痒就用手，有时他还要用指甲抓，抓痒。因为所有的纸纸都需要用破纸来制造，所以纸上的纤维已经越来越少了！这会影响到我们的气候，环境变得糟糕，地球已经不是以前的样子啦！但是小明从家里都不注意。

一天，小明睡着了，他梦见他和洪洪一起去游泳！游泳时，天气特别热，小明不知道为什么，于是他去问同学，小春不知道，他又去问同学，同学说不知道，他又去问同学，同学说可能有一个小孩在浪费水资源。小明都听他下去就去洗澡啦！小明听了惭愧地低下了头。

以后，小明就不

以来,小明醒了,他真的变了,他比觉醒那些浪费粮食的人,要爱护地球,珍惜资源,他成了环保小卫士。

奇妙的水

WHAM!

I live in the sea. I have a lot of friends here. Today the sun is very hot. Whew! The sun is heating me up! I am getting smaller and smaller. Oh! I am going up! Up! Up! Into a cloud! Wheel! Look at them. They look just like me. It is really cool up here. I like this place. Hey! Look at me! I am getting bigger and bigger. Oh, no! I am too big and heavy! I am falling from the sky! Where am I now? Oh, I am in a river. My friends are falling onto the ground. They are seeping into the ground. Now the river is moving fast! Oh, no. A waterfall! What is this place? Oh! I am being cleaned! It's dark in here. Where am I going now? Oh! "Splash!" Wow! Here I am again! Do you know who I am?

上海寶山路小學 編劇部 一年級一班 陳思宇

Recycling is important.

The earth's natural resources are limited.

If we don't recycle, then the earth's resources will be gone.

Let's take action to do something for our environment.

We should never waste anything.

Super Energy Saver"

SES Science Festival

请回收废纸，一吨废纸 = 800 千克再生纸 = 17 棵大树。

请勿随意丢弃废旧电池。一个 5 号电池可将 5 平方米土地重金属污染达 50 年。

请回收塑料饮料瓶，1 吨塑料饮料瓶，可获得 0.7 吨二级原料。

请购物时自带布袋或菜篮，拒绝一次性塑料袋，它在土壤中需 200 年才会腐烂。

环保小故事

南鸟岛的毁灭

在很久以前，太平洋上有一个不大的南鸟岛，岛上住着一批土著人。他们以海产品为食，过着刀耕火种的生活。有一天，岛上发生了一场大火，把岛上的房屋、树木、庄稼都烧光了。大火过后，岛上只剩下一些焦黑的木炭和灰烬。土著人们看到岛上只剩下一些焦黑的木炭和灰烬，感到非常伤心。他们开始寻找新的住所，但岛上已经没有其他地方可以住了。最后，土著人们只好离开这个美丽的岛屿，去寻找新的家园。

环保小故事

王老五的烦恼

王老五是一个勤劳的农民，他种了一亩地。他每天天不亮就起床，开始一天的劳作。他种的是小麦，他非常用心地照顾它们。他给它们浇水、施肥、除草。他希望它们能长得很好，这样他就能收获很多粮食了。但是，最近他发现小麦长得不好。他问村里的老农，老农告诉他，可能是因为天气太热了，小麦缺水了。王老五赶紧给小麦浇水，但小麦还是长得不好。他感到非常烦恼，不知道该怎么办才好。

环保对人类的重要性

环保对人类的重要性不言而喻。我们生活在一个地球上，地球是我们唯一的家园。如果我们不保护环境，我们的家园将会被污染，我们的生命将会受到威胁。环保不仅是为了我们自己，也是为了我们的子孙后代。我们应该从现在开始，从身边的小事做起，为保护环境贡献自己的一份力量。

环保小故事

地球妈妈的烦恼

地球妈妈是一个非常慈爱的母亲，她养育了我们人类。但是，最近她感到非常烦恼。她发现人类在不断地破坏她的身体。他们砍伐森林、污染水源、排放废气。她感到非常伤心，因为她知道，如果她继续这样下去，她的身体将会被破坏，她的孩子们将会失去家园。她希望人类能够停止破坏，开始保护环境，让她能够继续养育她的孩子们。

环保

环保是指人类为了保护和改善生活环境，防止污染，保障人体健康，促进可持续发展而采取的各种措施。环保不仅是为了我们自己，也是为了我们的子孙后代。我们应该从现在开始，从身边的小事做起，为保护环境贡献自己的一份力量。

Environmental Protection

Environmental Protection is the act of protecting the environment from pollution and other harmful activities. It is important for us to protect the environment because it is our home. We should start from now and do small things to protect the environment.

天灯 1 小时

我们的地摊也是有限的,我们只能在有限的时间内,为你们服务,所以你们要早来,以免错过我们的摆摊时间。

现在，我们小区的河水被污染，黑臭的，也几乎没有鱼了。我们每天一定要喝自来水，不然就会生病。我觉得现在的环境是一种很不好的现象，所以我们要少污染环境，我觉得不但环境好，人们才会生活得更幸福。

让我们守住地球吧！

one world

It's much better to have a small planet than a big one. It's much better to have a small planet than a big one. It's much better to have a small planet than a big one.

In our gardens, we can grow our own fruit and vegetables to eat. But we must be careful not to use too much water. We can collect rainwater to water them. If we do all we can to look after our precious planet, our world will be a greener, healthier and safer place to live.

We all live on a beautiful planet—Earth. But our earth is crying. We need to protect our home. Let's use less paper than today on because paper is made from trees. To protect trees is such an important thing. As teacher David told us trees and human live in a symbiosis. A symbiosis means live together and help each other. What we breathe in the trees breathe out, what we breathe out the trees breathe in. Trees breathe in carbon dioxide and breathe out oxygen for us. With their hard working, the air is being kept clean and fresh so that we have a better place to live.

Save the earth

Nigel Lim
2011/5/21

One earth

When I was in Japan, I always saw the rubbish was separated into cans, glass bottles, PET bottles, bottles and so on. (But when I came to China, I saw all the rubbish in one place. I think China will carry out the way like Japan in order to save resources and protect our environment.)

Recently, with the development of the world in our Earth, we are all know, there is only one earth and the resources are limited. First, human life, it's changed, human life on Earth, environment is the production of mankind. Therefore, the environment must be better with better office. Therefore, human and produce with the best way of work will be the best way. If we don't save water, the last drop of water will be the last drop of water. If we don't save energy, the last drop of energy will be the last drop of energy. If we don't save paper, the last drop of paper will be the last drop of paper. If we don't save land, the last drop of land will be the last drop of land. If we don't save air, the last drop of air will be the last drop of air. If we don't save food, the last drop of food will be the last drop of food. If we don't save anything, the last drop of anything will be the last drop of anything.

We are living in the earth, we need to protect the place we live. First we need to do is not waste water. Anytime, after we wash hands, turn it off. Second we should not waste paper and power. If it is day time, don't turn the light on. When we go out, don't throw rubbish on the road, we should put all rubbish into the rubbish bin.
