Literacy Pro

Are you looking for the best way to 您是否在寻找解决以下难题的最佳方法？

- increase students' interest in reading?
提高学生的阅读兴趣
- measure students reading abilities?
测评学生的阅读能力
- improve students' reading level?
提高学生的阅读水平
- individualize students' learning?
因材施教
- monitor students' reading progress?
监控学生的阅读进度

Scholastic Literacy Pro

The Best Choice for Motivating, Measuring, and Monitoring Reading Progress

激励、评估、监督学生阅读进步的最佳选择！

How does Literacy Pro help develop successful readers?

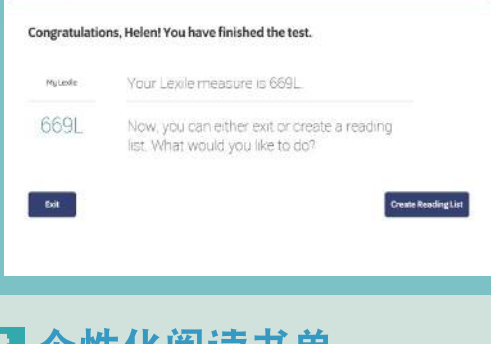

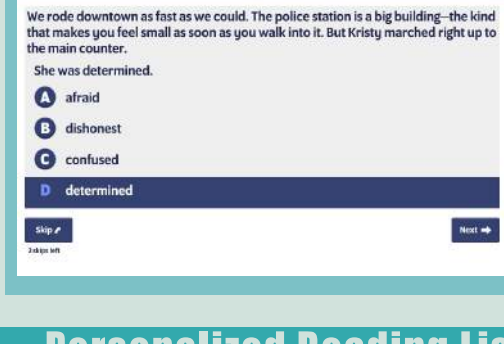

Literacy Pro is a research-based, online assessment resource that provides teachers with evidence-based data so they are informed when making teaching/learning decisions to develop their students into successful, proficient readers.

Literacy Pro Test 阅读能力测试

Our 20-30 minute assessment will evaluate each student's reading ability and identify the correct Lexile level for them.

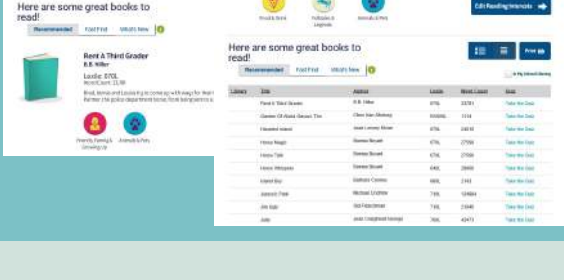

学生不需要任何背景知识就可以在20-30分钟内完成精准的阅读能力测试，测试完毕即刻获得蓝思分值。

Personalized Reading List 个性化阅读书单

Students will first indicate their reading interests. Scholastic Literacy Pro will then generate a personalized reading list of books in each student's Target Reading Range. When students read books in their ideal range, they will comprehend approximately 75% of what they are reading. That's enough to understand the text and not feel frustrated. At the same time, it also helps them acquire new vocabulary, improve reading comprehension skills and learn new information in the process. Targeted reading range runs from 100L below to 50L above a student's assessed Lexile level.

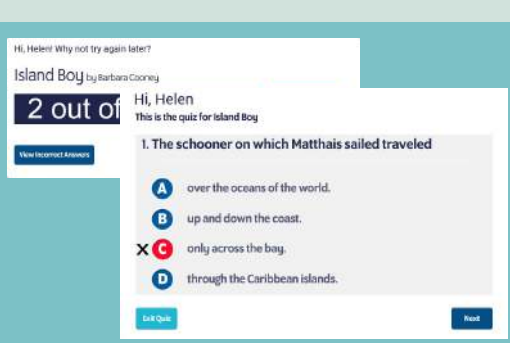

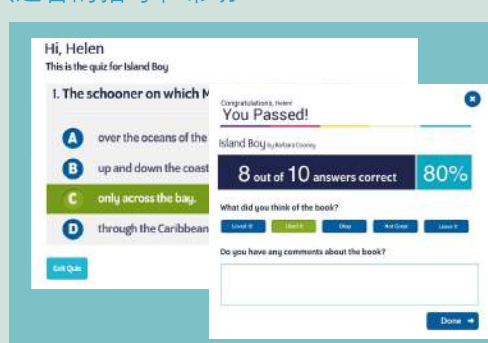

阅读训练中，重复阅读简单的读物，收效甚微；而阅读太难的读物，又容易失去阅读兴趣和耐心，从而放弃阅读。因此，选择适合自己阅读能力的读物非常重要。学生可以根据自己的阅读兴趣选择自己蓝思分值以上50L和以下100L的读物进行阅读，从而有效地提高学生的阅读能力。

Differentiated Instruction 差异化教学

Teachers use results to plan appropriate instruction and personalized support based on student reading levels.

教师可以根据学生的Literacy Pro Test和Book Quiz结果，为不同阅读水平的学生提供适合的指导和帮助。

Reports 阅读进度报告

Teachers and administrators can review student, class, year/grade, and school results as well as independent reading progress. This allows them to provide support when necessary, and communicate more effectively with parents.

教师和学校管理者可以通过全方位的信息和报告及时了解学生、班级、年级、学校的阅读能力水平与进展，并根据学生的个人需求给予正确的指导和适当的帮助。同时，这些报告也能有效地运用到家校联系中。

Lexile Growth Report

Student	Lexile Score	Word Count	Book
John Doe	450	1500	Planet Earth Stories
Jane Smith	500	2000	History of the World
...

Assess your readers to Inform your teachers and students to Develop reading success

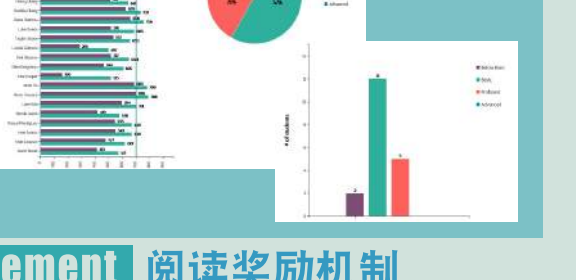

Reading Proficiency Band 阅读能力基准

By using US proficiency bands, teachers can easily compare students' reading level with that of US students'.

教师可以将学生的阅读水平与美国学生阅读水平进行比对和参照，轻松掌握学生的阅读能力范围。

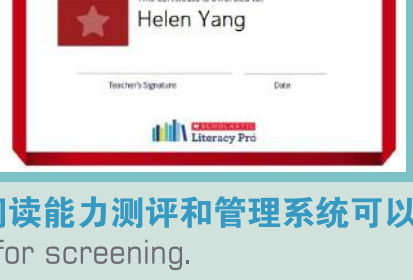

Proficiency Band	Lexile Range
Basic	300-400
Proficient	400-500
Advanced	500-600

Reward Reading Achievement 阅读奖励机制

Teachers can create a practical reward and recognition system in the classroom or school to increase students' reading interest.

教师可以依据学生的不同阅读能力为其定制不同的奖励机制，以此来不断提高学生的阅读兴趣。

Scholastic Literacy Pro 英语阅读能力测评和管理系统可以...

- provides benchmarking assessment for screening. 提供最具公信力的英语阅读水平评估标准；
- allows teachers and administrators to forecast and track growth. 预测和跟踪阅读能力训练进展；
- generates immediate actionable reports for students, teachers, and leaders. 产生即时有效的阅读水平评估报告；
- encourages accountability. 提供阅读训练奖励机制；
- matches readers to leveled texts and makes personalized reading recommendations. 提供个性化阅读建议；
- provides measurement tools that track student effort, progress, and success. 评估学生阅读进展，帮助学生实现独立阅读。
